Dear Mr. Reinbrecht:

This is in regard to your jurisdictional determination (JD) request, dated November 16, 2020, submitted on your behalf by Wetland Services, concerning a proposal to construct a residential neighborhood at 8800 N Green River Road, Evansville, Vanderburgh County, IN (Latitude: 38.05742° N and Longitude: -87.49341°W). We have reviewed the submitted application in accordance with the provisions of Section 404 of the Clean Water Act.

Based on the information submitted by you, it does not appear that a Department of the Army permit will be needed since the project referenced above would not involve a discharge of dredged and/or fill material below the Ordinary High Water elevation of any "waters of the United States (U.S.)" or any wetlands. "Waters of the U.S." include all waters which are currently used, were used in the past, or may be susceptible to use in interstate or foreign commerce.

If the project would necessitate the discharge of dredged or fill material into "waters of the U.S.," including wetlands, plans should be submitted for our review.

Our comments on this project are limited to only those effects which may fall within our area of jurisdiction and thus does not obviate the need to obtain other permits from State or local agencies. Lack of comments on other environmental aspects should not be construed as either concurrence or nonconcurrence with stated environmental effects.
