Owner's Certificate

The undersigned owners of the real estate shown and described hereon does hereby plat and subdivide said real estate as shown and designates the same as BROOKVIEW SECTION E-2. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips of ground, of the width shown on this plat and marked "Public Utility Easement", are hereby reserved for the installation, maintenance, operations, enlargement and repair of utility facilities, whether above ground or below ground. No structures other than such utility facilities shall be erected within said strips of land and any fence located within said strips of land shall be subject to removal by a public utility without liability in the use of said easements by said utility.

Strips of ground marked "Public Utility and Drainage Easement" are dedicated for surface water and/or subsurface water drainage in addition to public utilities; provided, however, that no above ground parts of such utility facilities shall be placed within the banks of drainage ditches or swales in such manner as to impede the flow of water.

Strips of ground marked "Drainage Easement" are dedicated for surface water and/or subsurface water provided, however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities; and provided that such facilities are not placed in such manner as to impede the flow of water and further provided that such drainage easements may be used for ingress and egress and temporary staging areas for work by public utilities.

General Notes

- Zoning: The subject property and all abutting property is currently zoned Ag.
- Flood Plain Data: Per F.I.R.M. Panel Number 180256 0025 C, dated August 15, 1991, Vanderburgh County, Indiana, a portion of the proposed subdivision is within the designated 100 year flood zone A. The Vanderburgh County Building Commissioner has determined a community Base Flood Elevation (BFE) for this area to be elevation 396.20. The lowest floor elevation (including garage floor and basement) must be at least two feet above the BFE (398.20). Flood insurance requirements may be waived by submitting proof to FEMA, after the floors have been constructed, that they are at or above the minimum required elevation.
- Detention easement: The detention easement across lots 15 and 16 is for temporary storm water storage. No fill shall be placed within the limits of this easement.
- Utilities: Sanitary sewer is available at the site. Water, gas, telephone and electric will be extended to the site.
- Road Grades: Maximum road grades will not exceed 1%.
- Temporary Erosion Control: (during construction)
 - Slopes of 0%-6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping.
 - Slopes of more than 6% shall be mulched and seeded and shall have straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.
- Structures: No portable or permanent storage sheds, dog houses, or other permanent or portable building shall be placed within any easement.

Surveyor's Certificate

I, James Q. Morley, hereby certify that I am a professional registered land surveyor licensed in compliance with the laws of the State of Indiana and that this plat correctly represents a true and accurate survey completed under my direct supervision on August 8, 1991, and that the monuments shown hereon actually exist and that their locations and materials are accurately shown hereon.

Witness my hand and seal this 9th day of February, 1994.
