General Notes

Zoning: The subject property is currently zoned AG as shown. All abutting property is zoned AG.

Flood Plain Data: Per F.I.R.M. Panel Number 180256 0025 C, dated August 5, 1991, Vanderburgh County, Indiana, some portions of the proposed subdivision lie within the designated 100 year flood zone. Per FEMA letter dated July 10, 1990 and recorded in Miscellaneous File 3, Card 5294, in the office of the Recorder of Vanderburgh County, Indiana, the 100 year flood elevation for this area is U.S.G.S. elevation 397.00. The lowest floor elevations of any enclosed space (including garage) must be at least two feet above the 100 year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). Additional information may be obtained from the Vanderburgh County Building Commissioner.

Utilities: Sewers, water, telephone and electric are available at the site.

Road Grades: Maximum road grades shall not exceed 3%.

Temporary Erosion Control: (during construction)

- * Slopes of 0%-6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping.

- * Slopes of more than 6% shall be mulched and seeded and shall have straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Erosion Control for Ditches:

Slopes of 0% - 2% shall be mulched and seeded within 45 days of disturbance.

Slopes of 2% to 8% shall be sodded or stabilized with an erosion control mat at completion of ditch grading.

Slopes over 8% require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.

Easements: All easements, unless otherwise indicated, are public utility or drainage easements. All easement widths are as shown hereon. See Owners Certificate for dedication and restrictions.

Public Drainage Easement: The individual lot owners shall not construct or place any obstruction within any public drainage easement which will interfere with the flow of surface water along the drainage easement. No fences shall be constructed within any Public Drainage Easement. See Owners Certificate for dedication and restrictions.

Structures: No portable or permanent storage sheds, dog houses, or other permanent or portable building shall be placed within any easement.

Owners Certificate

The undersigned owner of the real estate shown and described hereon does hereby plat and subdivide said real estate as shown and designates the same as BROOKVIEW SECTION F-2. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips of ground, of the width shown on this plat and marked "Public Utility Easement", are hereby dedicated for the installation, maintenance, operation, enlargement and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstructions. No structures other than such utility facilities shall be erected within said strips of land and any fence located within said strips of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips of ground marked "Drainage Easement" are dedicated for surface water and/or subsurface water; provided, however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities; and provided that such facilities are not placed in such manner as to impede the flow of water and further provided that such drainage easements may be used for ingress and egress and temporary staging areas for work by public utilities.
