GENERAL NOTES

Flood Plain Data:
 The subject property is not located in Special Flood Hazard Zone "A" as shown on Flood Insurance Rate Map (FIRM) Panel No. 180258 0050 B, dated March 19, 1992. However, buildings placed on the lots within this subdivision will be subject to Minimum First Floor (MFF) elevations to be determined by the Building Commissioner of Vanderburgh County according to the Floodplain Management Ordinance.

At the time of recording of this plot, the Building Commissioner has determined the MFF elevation to be 390.00'

Prior to the placement of any structures on lots within this subdivision, the Building Commissioner's office must be contacted to confirm that the "MFF" shown has not been modified based on new or updated hydraulic information. Actual first floor elevations may need to be higher in order to provide proper drainage around the structure.

Utilities: Municipal water is available to be extended to the lots within the subdivision.
 Sanitary sewer exists on the lots within the subdivision.

Temporary easements cover installed infrastructure. They expire when the section of subdivision that they are located in is recorded and the proper easements are granted in the newly recorded section.

Basements: Any basement must be approved by the Vanderburgh County Building Commissioner.

Property Corner Markers: All corners not already marked will be marked with a 5/8" diameter steel rebar with plastic cap stamped "Morley & Assoc. ID #0023"

Drainage Facilities: It shall be the lot owner's responsibility for any installation, maintenance, repair, and replacement of all drainage facilities, parts, and pieces located on all lots.

Erosion Control:
 The Developer, Development Contractors, Builders and all Lot Owners or anyone working with or disturbed earth shall comply with the "Erosion Control Plan" and any amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.

Temporary Erosion Control: (during construction)
 Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and seeding.

Slopes of more than 6% shall be mulched and seeded and shall have straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Erosion Control for Ditches:
 Slopes of 0% to 1% shall be seeded and mulched within 45 days of disturbance. Slopes of 1% to 6% shall be sodded or stabilized with an erosion control mat at completion of ditch grading. Slopes over 6% require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.

OWNER'S CERTIFICATE

The undersigned owners of the real estate shown and described herein do hereby plat and subdivide said real estate as shown and designate the same as Cross Pointe Section 7C. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plot and marked "P.U.E." (Public Utility Easement), are hereby dedicated to public utilities for the installation, maintenance, operation, enlargement and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstructions. No structures other than such utility facilities shall be located within said areas of land and any fence located within said areas of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips or areas of land, of the dimensions shown on this plot and marked "D.E." (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water; provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided, that such facilities are not placed in such manner as to impede the flow of water and further provided that such Drainage Easements may be used for ingress, egress and temporary staging areas for work by public utility so long as any damage caused to a drainage facility is repaired by the utility company. The property owner is responsible for maintenance and erosion control of said easements and shall not place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.

Strips or areas of land, of the dimensions shown on this plot and marked "D.U.G.P.U.E." (Drainage & Underground Public Utility Easement) are dedicated for conveyance of surface water and/or subsurface water drainage and for the maintenance and operation of underground portions of public utility facilities, including flush with surface level manholes and vaults that do not impede drainage flow, access along the easement, or mowing and maintenance of the easement. No structures other than such utility facilities or drainage ways or systems shall be located within said areas of land and any fence located within said areas of land is subject to removal by the Drainage Board or a public utility without liability, in the use of said easements.

Strips or areas of land, of the dimensions shown on this plot and marked "Ingress-Egress Easement" are hereby dedicated for the use of shared driveways to access lots D21A and D21B.
