

HAVENWOOD MEADOWS-SECTION THREE

SECONDARY PLAT

GENERAL NOTES

- Utilities:** Sanitary sewer, water, gas, electric, and telephone will be extended to the site.
- Flood Plain Data:** A portion of this property lies within the 100 year flood zone (Zone A) as said property plots by scale on the Flood Insurance Rate Map (FIRM) Community Panel 180256 0025 C, dated August 5, 1991.
- Compaction Certification:** Within Flood Zone "A", a soils engineer shall certify the compaction, methods, and suitability of fill in the area of building pads and shall delineate lot numbers for those building lots being certified on the site grading plan. Further, the soils engineer will provide special footing and foundation requirements, if any, based on the soil conditions.
- Earth Fill:** Portions of this site have been filled in accordance with acceptable industry standards, and houses may be placed on this fill.
- Special Measures:** are required to provide extra crown slope protection due to ground elevations. Special measures may include waterproofing, installing sump pumps, yard slopes in excess of code minimums, etc.
- Lot Drainage:** Individual lot owners are responsible to construct and maintain respective lot grades in such a manner as to allow stormwater runoff from abutting lots to flow freely to drainage swales or street curbs.
- Road Grades:** Road grades shall not exceed 8.33%.
- Temporary Erosion Control:** (during construction)
 - Slopes of 2X-8X shall be mulched and seeded with a cover crop, i.e., ryegrass, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and seeding.
 - Slopes of more than 6X shall be mulched and seeded and shall have straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.
- Erosion Control for Ditches:**
 - Slopes of 2X-2X shall be mulched and seeded within forty-five (45) days of disturbance.
 - Slopes of 2X-8X shall be sodded or stabilized with an erosion control mat at completion of ditch grading.
 - Slopes over 8X require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.
- Storm Drainage Maintenance:** The individual lot owner(s) shall be responsible, including financially, for maintaining that part of the storm water drainage system and its easements which exist in his or her property in proper working order including:
 - Mowing grass, controlling weeds and maintaining the designed cover of the waterways, storage basins, and easements in accordance with applicable ordinances.
 - Keeping all parts of the storm water drainage system operating as designed and constructed and free of all trash, debris, and obstructions to the flow of water.
 - Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
 - Maintaining that part of the storm water drainage system which lies on his or her property in accordance with the conditions described on the approved street and/or drainage plans on file in the City Engineer's Office, and in compliance with the County Drainage Ordinance.
 - Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easement which lies on his or her property.
 - Notice: Any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the Board of Public Works.
 - Notice: Any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the County Drainage Board.
- Property Corner Markers:** All corners not currently marked will be marked with a 5/8" iron rod with a plastic cap labeled "P.L.S. 9000007".

OWNER'S CERTIFICATE

The undersigned owners of the real estate shown, and described herein, does hereby plot and subdivide said real estate as shown and designates the same as HAVENWOOD MEADOWS-SECTION THREE. All roads shown, and not previously dedicated, are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plat and marked "Public Utility (P.U.) Easement", are hereby dedicated for the installation, maintenance, operation, enlargement, and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush, and obstructions. No structures other than such utility facilities shall be erected within said areas of land and any fence located within said areas of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips or areas of land, of the dimensions shown on this plat and marked "D.E." (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water; provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided, that such facilities are not placed in such a manner as to impede the flow of water and further provided that such Drainage Easements may be used to ingress, egress and temporary staging areas for work by public utility so long as any damage caused to a drainage facility is repaired by the utility company. The property owner is responsible for maintenance and erosion control of said easements and shall not place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.

Areas of land marked "Lake Maintenance and Storm Detention Easement (LM&SDE)" are dedicated for the maintenance of the storm water detention system. The Owner assigns the responsibility for the repair of all storm water drainage systems and facilities outside of the County accepted road rights-of-way to Vanderburgh County, as provided in Section 1502.02 (Plan 3-Repairs) of the Drainage Ordinance. The individual Lot Owners continue to be responsible, financially and otherwise, for maintaining the portion(s) of the storm water drainage system, and specifically the LM&SDE and DE, which exist on their property. (The responsibilities are outlined in General Note # 8-Items A-G.)

Strips or areas of land, of the dimensions shown on this plat and marked "S.S.E." (Sanitary Sewer Easement), are hereby dedicated to the sanitary sewer utility for the installation, maintenance, operation, enlargement, and repair of utility facilities, with the right to trim or remove at the discretion of the sanitary sewer utility, trees, overhanging branches, bushes, underbrush, and obstructions. No buildings or similar structures, other than such utility facilities, can be located within said areas of land. Any fence located within said areas of land is subject to removal by the sanitary sewer utility without liability in the use of said easements by said utility.
