Keystone Subdivision  
 Section VI C  
 Plat Book Q, Page 48

### General Notes

- Noise sensitive note: It is understood by the Owners that the above described real property lies in close proximity to an operating airport and that the operation of the airport and the landing and takeoff of aircraft may generate high noise levels.
- Flood Plain Data: All of the proposed subdivision lies within the boundaries of the 100 year flood zone A9 as plotted by scale on Flood Insurance Rate Map for Vanderburgh County, Indiana, Community Panel Number 180256 0025 C, dated August 5, 1991. The 100 Year Flood Elevation shown thereon is 364.50.
- Lake Maintenance: The owner of Outlet A shall maintain the portions of the lakefront lying within this section.
- Storm Drainage Maintenance: The Lot Owner within this subdivision shall be financially responsible for the grass cover, mowing and cleaning of any part of the storm water drainage system including inlets, banks and preservation of the design for the elevations lying within their respective lot. Lot owners shall not construct or place any obstruction within drainage easements which will interfere with the flow of surface water along drainage easements.
- The Keystone Subdivision Homeowners Association shall be responsible financially, including repair and maintenance of the entire storm water drainage system its parts and easements within or attached to this subdivision and outside of the county accepted rights-of-way including:
- Enforcing the mowing and cleaning obligations of the individual lot owners plus mowing, controlling weeds and maintaining the designated cover of waterways, basin areas and easements attached to this subdivision.
  - Keeping all parts of the storm water drainage system operating at all times as designed and as constructed, and free of all trash, debris, and obstructions to the flow of water.
  - Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
  - Maintaining and repairing the storm water drainage system including pipes, inlets, outlets and rip-rap in accordance with the conditions described on the approved street and/or drainage plans on file in the County Engineer's or County Surveyor's office, and in compliance with the county drainage ordinances.
  - Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easements within or attached to this subdivision.
  - Notice: A Lot Owner must obtain prior written approval of the County Drainage Board before constructing any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision.
  - The foregoing obligation for Drainage maintenance is a requirement of Vanderburgh County and is enforceable by Vanderburgh County.
- Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working with or on disturbed earth shall comply with the "Erosion Control Plan" and any amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.
- Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping. Slopes of more than 6% shall be mulched and seeded and shall have silt fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.
- Erosion Control for Ditches: Slopes of 0% to 1% shall be seeded and mulched within 45 days of disturbance. Slopes of 1% to 6% shall be sodded or stabilized with an erosion control mat at completion of ditch grading. Slopes over 6% require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.
- Property Corner Markers: All corners not already monumented will be monumented with a 5/8" diameter iron rod with plastic cap stamped "Morley and Associates, Inc. I.D. No. 00223."
- Bench Mark Data:  
 Reference Bench Mark - N.G.S. #W-358  
 Round top pin in recessed spot at the southeast corner of the intersection of U.S. 41 and Lynch Road. Elev. = 384.69  
 NE 1/4, Sec. 2-6-10  
 TBM #2 - Chiseled Square in top of curb 2' east of curb inlet on the north side of Quakerbridge Dr. at lot 456 Elev. = 398.35  
 3/4" pipe (hd)
- Storm drainage plans were approved by the Vanderburgh County Drainage board on: April 24, 2000
- South of Bearing: North Line of the Northeast Quarter of Section 2-RS-T10W bearing = N 90°00'00" E 263.78', monumented by a 3/4" bat at the NW cor., and a 5/8" I.Rod at the NE corner.

### OWNER'S CERTIFICATE

The undersigned owners of the real estate shown and described hereon do hereby plat and subdivide said real estate as shown and designate the same as Keystone Subdivision Section VII D.

Strips or areas of land, of the dimensions shown on this plat and marked "L.M.&S.D.E." (Lake Maintenance & Storm Detention Easement) are dedicated for the maintenance of the storm detention lake and maintenance, and storage of storm water. Any major alterations to the land within these easements must have the approval of the Drainage Board. Fences may not be extended across the Lake Maintenance and Storm Detention Easement.

All easements are dedicated with the right of ingress and egress over the lots within this subdivision to and from said easements for necessary construction, maintenance or reconstruction.
