NOTES
Erosion control: Slopes of 0 to 6% shall be mulched and seeded, i.e. rye, red top, and wheat (which will be used primarily for fall planting) within 45 days of disturbance of soil and must remain in place until final grading and shaping. Slopes more than 6% shall have straw bales and/or erosion blankets in place within 5 days of disturbance of soil and must remain in place until final grading and shaping. All corners marked with iron pin except as noted.

Strips of ground marked "Drainage Easement" are dedicated for surface water and/or subsurface water drainage; provided, however, that public utilities are hereby permitted to cross such Drainage Easements with public utility facilities, and provided that such facilities are not placed in such manner as to impede the flow of water and further provided that such drainage easements may be used for ingress and egress and temporary staging areas for work by public utilities.

Strips of ground, of the width shown on this plat and marked "Public Utility Easement", are hereby dedicated to public utilities for the installation, maintenance, operation, enlargement and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstruction. No structure other than such utility facility shall be located within said strips of land and any fence located within said strips of land is subject to removal by a public utility, without liability, in the use of said easements by said utility.

All utilities available at site by extension
NOT IN FLOOD ZONE - MAP 0007B

OWNER'S CERTIFICATE
I, The undersigned owner of the real estate shown and described hereon, do hereby as shown plat and subdivide said real estate and designate same as L.L.C. SUBDIVISION

All streets within the plat are dedicated to the public. Building setback lines are established as shown on the plat between which lines and the property of the street there shall not be erected or maintained any building or structure. Strips of ground marked "P. U. easement" are reserved for the use of public utilities. Owners of lots shall take title subject to the rights of the public utilities in said strips of ground. Strips of ground marked "drainage easement" are reserved for surface water and/or subsurface water drainage. No structure shall be erected for maintained in said strips of ground. Further, no bushes, shrubs, trees, or any other obstruction that would impede the flow of surface water shall be permitted in said strips of ground. Each lot owner shall be responsible for maintenance (cutting grass and weeds, and removing any obstructions to water flow) of that portion of the drainage channels or swales on their lots.
