

Stonecreek Section 6

DULY ENTERED FOR TAXATION SUBJECT TO FINAL ACCEPTANCE FOR TRANSFER

MAR 31 2004

Sub-Plat ALBERTA #2040

General Notes

Noise sensitive note: It is understood by the Owners that the above described real property lies in close proximity to an operating airport and that the operation of the airport and the landing and takeoff of aircraft may generate high noise levels.

Flood Plain Data: Per F.I.R.M. Panel Number 180256 0025 C, dated August 5, 1991, Vanderburgh County, Indiana, all of the described Section 6 lies within the designated 100 year flood zone.

Access: Lot 1 will access Seib Road to the west, only.

Utilities: Water and Sanitary sewer services have been extended to the site.

Basements: Any basements must be approved by the Vanderburgh County Building Commissioner.

Floor Elevations: The lowest floor elevations of any enclosed space (including garage) must be at least two feet above the 100 year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). The FPG for all the lots in this subdivision varies. FPG has been marked on all lots in the flood plain. Additional information may be obtained from the Vanderburgh County Building Commissioner.

First floor grades shall be set to allow for proper drainage away from structures. All first floor grades shall conform to local and state enforced building codes.

Special measures are required to provide extra crawl space protection due to ground elevations. Special measures may include waterproofing, installed sump pumps, yard slopes in excess of code minimums, etc.

Storm Drainage Maintenance: Per Plan B (Repair Fund) of the County Drainage Ordinance. The individual lot owner(s) shall be responsible, including financially, for maintaining that part of the storm water drainage system and its easements which exists on his or her property in proper working order including:

- Mowing grass, controlling weeds, and maintaining the designed cover waterways, storage basins, and easements in accordance with applicable ordinances.
- Keeping all parts of the storm water drainage system operating as designed and as constructed, and free of all trash, debris, and obstructions to the flow of water.
- Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
- Maintaining that part of the storm water drainage system which lies on his or her property in accordance with the conditions described on the approved street and/or drainage plans on file in the County Surveyor's Office, and/or in the County Engineer's Office, and in compliance with the County Drainage Ordinance.
- Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easement which lies on his or her property.
- The Repair Fund established for this Project will pay the costs of repairing structural failures in the storm sewer pipes, pipe collars, drop boxes, aprons, inlets, manholes, junction boxes, and the piped or paved outlet structures of the storm water control basins all of which are parts of the approved and constructed storm water drainage system shown on the as-built plans for this Subdivision; and which are in drainage easements and outside of the county accepted road rights-of-way as shown on the plat of this subdivision.
- NOTICE: Any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the County Drainage Board.

Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working with or disturbed earth shall comply with the "Erosion Control Plan" and any amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e. rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping. Slopes of more than 6% shall be mulched and seeded and shall have silt fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Property Corner Markers: All corners not already monumented are marked with a 5/8" diameter iron rod with plastic cap stamped "Morley and Associates, Inc. I.D. No. 0023."

Legend

- FPG - Flood Protection Grade (Minimum Floor Elevation)
- BM - Bench Mark
- R - Radius
- L - Length
- BL - Lot width at Building Setback Line
- BSL - Building Setback Line
