GENERAL NOTES

Utilities: Water and sanitary sewers will be extended to the site. Natural gas and electricity will be extended to the site.

Road Grades: Maximum road grades will not exceed 5%.

Basements: The Vanderburgh County Building Commissioner must approve all basements.

Flood Plain Data: Portions of the proposed subdivision lie within the boundaries of the 100 year flood zone as plotted by scale on Flood Insurance Rate Map for Vanderburgh County, Indiana, Community Panel Number 180256 0025 C, dated August 5, 1991. The 100 Year Flood Elevation determined for this site is 382.0.

The lowest floor elevations of any enclosed space (including garage) must be at least two feet above the 100-year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). FPG has been marked on all lots in the flood plain and all areas designated by the Building Commissioner. Additional information may be obtained from the Vanderburgh County Building Commissioner. First floor grades shall be set to allow for proper drainage around houses. Lowest adjacent grades and cross-slopes shall be a minimum of 0.1' above the Base Flood Elevation (100 year flood elevation).

Special measures are required to provide extra ground space protection due to ground elevations. Special measures may include waterproofing, installing sump pumps, yard slopes in excess of code minimums, etc.

Earth Fill: Portions of this site have been filled in accordance with acceptable industry standards, and houses may be placed on this fill.

Access: All lots shall access interior streets only.

Lakefront Maintenance: The owners of lakefront lots 62 through 73 shall maintain the portions of the lakefront lying on their respective lots.

Storm Drainage Maintenance: The individual lot owner(s) shall be responsible, including financially, for maintaining that part of the storm water drainage system and its easements which exist on his or her property in proper working order including:

- Mowing grass, controlling weeds and maintaining the designed cover of the waterways, storage basins, and easements in accordance with applicable ordinances.
- Keeping all parts of the storm water drainage system operating as designed and constructed; and free of all trash, debris, and obstructions to the flow of water.
- Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
- Maintaining that part of the storm water drainage system which lies on his or her property in accordance with the conditions described on the approved street and/or drainage plans on file in the City Engineer's Office; and in compliance with the County Drainage Ordinance.
- Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easement which lies on his or her property.
- Notice: Any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the Board of Public Works.

Erosion Control: The Developer, Contractors, Builders and all Lot Owners or anyone working on or disturbing soil shall comply with the Erosion and Sediment Control Plan and any of its amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State, and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping. Slopes of more than 6% shall be mulched and seeded and shall have silt fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Property Corner Markers: All corners not already monumented will be monumented with a 5/8" diameter iron rod with plastic cap stamped "Morley and Associates, Inc. I.D. No. 0023".

Bench Mark Data: Reference Bench Mark - NGS monument pin in flip top lid @ N.W. corner of JoJo's property, approximately 3' south of north end of wall @ eastside wall = 254.69

TBM #1 - Chiseled "x" in concrete curb of median (Oak Hill Rd. and Mariner Drive) at southeast point of tangency = 412.33

Final drainage plans were approved by the Board of Public Works on: 07-24-00

Final road plans were approved by the Board of Public Works on: 08-21-00

Final sanitary sewer plans were approved by the Evansville Water and Sewer Utility Board on: 10-03-00

OWNER'S CERTIFICATE

The undersigned owners of the real estate shown and described hereon do hereby plot and subdivide said real estate as shown and designate the same as **Amhearst Manor Section II, Phase I**. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plot and marked "P.U.E." (Public Utility Easement), are hereby dedicated to public utilities for the installation, maintenance, operation, enlargement and repair of utility facilities and/or storm drains, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstructions. No buildings or similar structures other than such utility facilities shall be located within said areas of land. Any fence located within said areas of land is subject to removal without liability in the use of said easements. However, nothing herein shall prevent the use of any portion of the easement for parking and drives.

Strips or areas of land, of the dimensions shown on this plot and marked "D.U.E." (Drainage & Underground Public Utility Easement) are dedicated for conveyance of surface water and/or subsurface water drainage and for the maintenance and operation of underground portions of public utility facilities, including flush with surface level manholes and vaults that do not impede drainage flow, access along the easement, or moving and maintenance of the easement. No structures other than such utility facilities or drainage ways or systems shall be located within said areas of land and any fence located within said areas of land is subject to removal without liability, in the use of said easements.

Strips or areas of land, of the dimensions shown on this plot and marked "D.E." (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water; provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided, that such facilities are not placed in such manner as to impede the flow of water and further provided that such Drainage Easements may be used for ingress, egress and temporary sloping areas for work by public utility. The property owner is responsible for maintenance and erosion control of said easements and shall place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.

Strips or areas of land, of the dimensions shown on this plot and marked "L.M.E." (Lake Maintenance Easement) are dedicated for the maintenance of the storm lake. Any major alterations to the land within these easements must have the approval of the Board of Public Works. Fences may not be extended across the Lake Maintenance and Storm Detention Easement.

All easements are dedicated with the right of ingress and egress over the lots within this subdivision and from said easements for necessary construction, maintenance or reconstruction.
