DANBURY CREST

SECTION 2

P-129

6388
JULY ENTERED FOR TAXATION SUBJECT
TO FINAL ACCEPTANCE FOR TRANSFER.
NOV 13 1997
Suzanne M. Connel
AUDITOR

GENERAL NOTES

- Zoning:** The subject property and all abutting property is zoned as noted.
- Utilities:** Sanitary sewer, water, gas, electric, and telephone will be extended to the site.
- Flood Plain Data:** No portion of this property lies within the 100 year flood zone (Zone A) as said property plots by scale on the Flood Insurance Rate Map (FIRM) Community Panel 180256 0025 C, dated August 5, 1991.
- Lot Drainage:** Individual lot owners are responsible to construct and maintain respective lot grades in such a manner as to allow stormwater runoff from abutting lots to flow freely to drainage swales or street curbs.
- Road Grades:** Maximum road grades will not exceed 10.0%.
- Contours:** Contours and topographical data shown were taken from Vanderburgh County Topographic Maps (sheet 195-dated March 27, 1990).
- Temporary Erosion Control (during construction)**
 - Slopes of 0% - 6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping.
 - Slopes of more than 6% shall be mulched and seeded and shall have straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.
- Erosion Control for Ditches**
 - Slopes of 0% - 2% shall be mulched and seeded within forty-five (45) days of disturbance.
 - Slopes of 2% - 8% shall be sodded or stabilized with an erosion control mat at completion of ditch grading.
 - Slopes over 8% require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.

OWNERS CERTIFICATE

The undersigned owner of the real estate shown, and described herein, does hereby plot and subdivide said real estate as shown and designates the same as DANBURY CREST - SECTION 2. All roads shown, and not previously dedicated, are hereby dedicated to public use.

Strips of grounds, of the width shown on this plot and marked "Public Utility Easement", are hereby dedicated for the installation, maintenance, operation, enlargement, and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush, and obstructions. No structures other than such utility facilities shall be erected within said strips of land and any fence located within said strips of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips of ground marked "Drainage Easement" are dedicated for surface water and/or subsurface water drainage, provided, however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities; and provided that such facilities are not placed in such a manner as to impede the flow of water and further provided that such drainage easements may be used for ingress and egress and temporary staging areas for work by public utilities.

Strips of ground marked "Public Utility and Drainage Easement" are dedicated for surface and/or subsurface water drainage in addition to public utilities; provided, however, that no above ground parts of such utility facilities shall be placed within the banks of drainage ditches, or swales, in such a manner as to impede the flow of water.

Individual lot owners shall maintain all easements on their lot. Lot owners shall not construct or place any obstruction within any "Drainage Easement" which shall interfere with the flow of water along said easements. In addition, individual lot owners shall keep all "Drainage Easements" clear of any impediments which may happen to fall or enter therein.

A Homeowners Association shall be formed in accordance with the procedures stated in the Covenants and Restrictions of Danbury Crest. The Association shall be responsible for the maintenance of the "offsite" drainage swales, drainage structures and detention basin, as shown on the Drainage Easement Plan. This Plan by reference is made part of this plot. Said Plan shall be amended as necessary to address reduction or modification of said Association's responsibilities.
