GENERAL NOTES:
Flood Plane Data: The Base Flood Elevation for the area has been determined to be 383.0 by the Office of the Vanderburgh County Building Commissioner. FIRM Panel No. 180256-0075B, Flood Zone "A". Portion of this subdivision are within Flood Zone "A".
ZONING: M-2
UTILITIES: The existing structure is served by water, sanitary sewer, gas, telephone and electric services.
TEMPORARY EROSION CONTROL: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e. of rye, red top or wheat within 45 days of the disturbance of the soil which must remain in place until final grading and shaping. Slopes of more than 6% shall be mulched and shall have straw bales and/or erosion blankets in place within 5 days of the disturbance of the soil and must remain in place until final grading and seeding.
MONUMENTS: 5/8" Iron pins exist at all boundary and lot corners unless otherwise shown on the plat.
OWNERS' CERTIFICATE: The undersigned owners of the real estate shown and described hereon do hereby plat and subdivide said real estate as shown and designate the same as ERIC DODD MINOR SUBDIVISION.

Strips or areas of land, of the dimensions shown on this plat and marked "PUE" (Public Utility Easement), are hereby dedicated to the public utilities for the installation, maintenance, operation, enlargement and repair of utility, trees, overhanging branches, bushes, underbrush and obstructions. No structures other than such utility facilities shall be located within said areas of land and any fence located within said areas of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips or areas of land, of the dimensions shown on this plat and marked "DE" (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water, provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided that such facilities are not placed in such a manner as to impede the flow of water and further provided that such Drainage Easements may be used for ingress, egress and temporary staging areas for work by the public utility so long as any damage caused to a drainage facility is repaired by the utility company. The property owner is responsible for maintenance and erosion control of said easements and shall not place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.

Strips or areas of land, of the dimensions shown on this plat and marked "LM&SDE" (Lake Maintenance and Storm Detention Easement) Any alterations to the land within these easements must have the approval of the Drainage Board. Fences may not be extended into the Lake Maintenance and Storm Detention Easement. All easements are dedicated with the right of ingress and egress over the lots within this subdivision to and from said easements for necessary construction, maintenance or reconstruction
