### OWNER'S CERTIFICATE

The undersigned owners of the real estate shown and described herein do hereby certify that the plat and subdivision map shown and designated the same as **Keystone Subdivision Section VII E**. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plat and marked "P.U.E." (Public Utility Easement), are hereby dedicated to public utilities for the installation, maintenance, operation, and repair of utility facilities and/or storm drains, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, undergrowth and obstructions. No buildings or other structures shall be located within said areas of land. Any fence located within said areas of land is subject to removal without liability in the use of said easements. However, nothing herein shall prevent the use of any portion of the easement for drives.

Strips or areas of land, of the dimensions shown on this plat and marked "D.U.U.P.U.E." (Drainage & Underground Public Utility Easement) are dedicated for conveyance of surface water and/or subsurface water drainage and for the maintenance and operation of underground portions of public utility facilities, including flush with surface level manholes and vaults that do not impede drainage flow, access along the easement, or mowing and maintenance of the easement. No structures other than such utility facilities or drainage ways or systems shall be located within said areas of land and any fence located within said areas of land is subject to removal without liability in the use of said easements.

Strips or areas of land, of the dimensions shown on this plat and marked "F.E." (Floodway Easement) are hereby dedicated for conveyance of surface water flooding within a defined floodway under the jurisdiction of the Indiana Department of Natural Resources (IDNR). The Flood Control Act, I.C. 15-2-22, states that it is unlawful to erect, make, use, or maintain any structure, obstruction, deposit, or excavation in or on any floodway without obtaining prior approval from the Department of Natural Resources.

All easements are dedicated with the right of ingress and egress over the lots within this subdivision and from said easements for necessary construction, maintenance or reconstruction.

### GENERAL NOTES

Noise sensitive note: It is understood by the Owners that the described real property lies in close proximity to an operating airport and that the operation of the airport and the landing and takeoff of aircraft may generate high noise levels. Utilities: Water and Sanitary Sewers are available to be extended to the site. Flood Plain Data: Portions of the proposed subdivision lie within the boundaries of the 100 year flood zone A9 as plotted by scale on Flood Insurance Rate Map for Vanderburgh County, Indiana, Community Panel Number 180256 0025 C, dated August 5, 1991. The 100 Year Flood Elevation shown thereon is 384.50. The lowest floor elevations of any enclosed spaces (including garages) must be at least two feet above the 100 year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). Additional information may be obtained from the Vanderburgh County Building Commissioner. First floor grades shall be set to allow for proper drainage around houses. All first floor grades shall conform to local and state enforced building codes. FPG has been marked on all lots near the flood plain. The minimum FPG for these lots is 386.50.

Access: All lots shall access interior streets only. Storm Drainage Maintenance: Each Lot Owner within this subdivision shall be financially responsible for the gross cover, mowing and cleaning of any part of the storm water drainage system including inlets, boxes and preservation of the design flow elevations lying within their respective lot. Lot owners shall not construct or place any obstruction within drainage easements which will interfere with the flow of surface water along drainage easements.

The Keystone Subdivision Homeowners Association shall be responsible financially, including repair and maintenance of the entire storm water drainage system its parts and easements within or attached to this subdivision and outside of the county accepted rights-of-way including:

- Entering the mowing and cleaning obligations of the individual lot owners plus mowing, controlling weeds and maintaining the designated cover of waterways, basin areas and easements attached to this subdivision.
- Keeping all parts of the storm water drainage system operating at all times as designed and as constructed; and free of all trash, debris, and obstructions to the flow of water.
- Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
- Maintaining and repairing the storm water drainage system including pipes, inlets, outlets and rip-rap in accordance with the conditions described on the approved street and/or drainage plans on file in the County Engineer's or County Surveyor's office; and in compliance with the county drainage ordinances.
- Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions to any part of the storm water drainage system and easements within or attached to this subdivision.
- Notice: A Lot Owner must obtain prior written approval of the County Drainage Board before constructing any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision.
- The foregoing obligation for drainage maintenance is a requirement of Vanderburgh County and is enforceable by Vanderburgh County.

Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working on or disturbed earth shall comply with the "Erosion Control Plan" and any amendments to it with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e., ryegrass, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and seeding. Slopes of more than 6% shall be mulched and seeded and shall have all fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

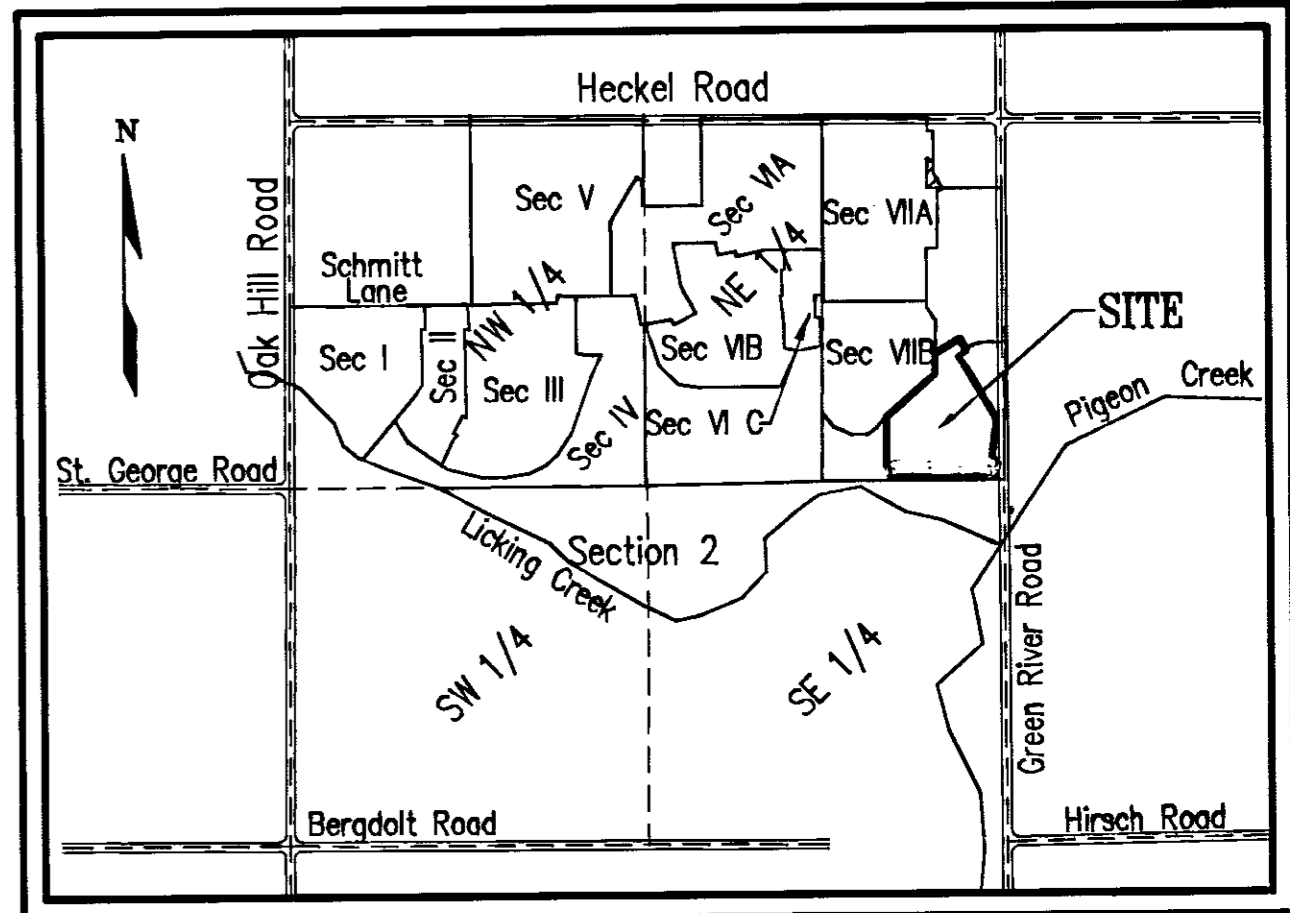

Erosion Control for Ditches: Slopes of 0% to 1% shall be seeded and mulched within 45 days of disturbing soil. Slopes of 1% to 6% shall be seeded or stabilized with an erosion control mat at completion of ditch grading. Slopes over 6% require riprap or other approved stabilization at completion of ditch grading if the total ditch length at that point is greater than 100 feet.
