GENERAL NOTES

UTILITIES: Water will be extended to the lots within the subdivision. Sanitary sewer exists along the south line of St. Joseph Terrace No. 2.

Storm Drainage Maintenance: Per Plan B (Repair Fund) of the County Drainage Ordinance, the individual lot owner(s) shall be responsible, including financially, for maintaining that part of the storm water drainage system and its easements which exists on his or her property in proper working order including:

- Mowing grass, controlling weeds, and maintaining the designed cover of waterways, storage basins, and easements in accordance with applicable ordinances.
- Keeping all parts of the storm water drainage system operating as designed and as constructed, and free of all debris, drains, and obstructions to the flow of water.
- Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
- Maintaining that part of the storm water drainage system which lies on his or her property in accordance with the conditions described on the approved street and/or drainage plans on file in the County Surveyor's Office, and/or in the County Engineer's Office, and in compliance with the County Drainage Ordinance.
- Preventing persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easement which lies on his or her property.
- The Repair Fund established for this Project will pay the costs of repairing structural failures in the storm sewer pipes, pipe collars, drop boxes, aprons, inlets, manholes, junction boxes, and the piped or paved outlet structures of the storm water control basins all of which are parts of the approved and constructed storm water drainage system shown on the as-built plans for this Subdivision, and which are in drainage easements and outside of the county accepted road rights-of-way as shown on the plat of this subdivision.
- NOTICE: Any pipe, fence, wall, building, pool, patio, planting, stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the County Drainage Board.

FLOOD PLAIN DATA:

No part of the within described tract of land lies within that special Flood Zone A as solid tract plots on Community Panel No. 180256 0075 C of the Flood Insurance Rate Maps for Vanderburgh County, Indiana, dated August 5, 1991.

First floor grades shall be set to allow for proper drainage away from houses. All first floor grades shall conform to local and state enforced building codes.

Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working with disturbed earth shall comply with the "Erosion Control Plan" and any amendments thereto filed with the County Drainage Board and the Soil and Water Conservation District; also with all Federal, State and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop. 14, 16, red top, or wheat, within forty-five (45) days of disturbance of soil which must remain in place until final grading and sloping. Slopes of more than 6% shall be mulched and seeded and shall have all fences, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Property Corner Markers: All corners not already monumented will be marked with a 5/8" diameter steel rebar with plastic cap stamped Morley & Assoc. I.D. # 0023.

Basin of Bearings: St. Joseph Terrace No. 2
Reference Survey: Doc 2007R 000 28685-No matters of said survey have changed.

OWNER'S CERTIFICATE

The undersigned owners of the real estate shown and described herein do hereby plot and subdivide said real estate as shown and designate the same as Preston Oaks. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plat and marked "P.U.E." (Public Utility Easement), are hereby dedicated to public utilities for the installation, maintenance, operation, engagement and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstructions. No structures other than such utility facilities shall be located within said areas of land and any fence located within said areas of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips or areas of land, of the dimensions shown on this plat and marked "L.M.S.D.E." (Lake Maintenance & Storm Drainage Easement) are dedicated for the maintenance of the storm drainage lake and maintenance, and storage of storm water. Any alterations to the land within these easements must have the approval of the Drainage Board. Fences may not be extended into the Lake Maintenance and Storm Drainage Easement.

Strips or areas of land, of the dimensions shown on this plat and marked "D.E." (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water; provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided, that such facilities are not placed in such manner as to impede the flow of water and further provided that such Drainage Easements may be used for ingress, egress and temporary staging areas for work by public utility so long as any damage caused to a drainage facility is repaired by the utility company. The property owner is responsible for maintenance and erosion control of said easements and shall not place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.
