Area Plan Commission Certificate

Under the authority provided by the Acts of 1981, Public Law #309, and enacted by the General Assembly of the State of Indiana, proper notice was given and this plat has been given PRIMARY APPROVAL by the AREA PLAN COMMISSION OF EVANSVILLE and VANDERBURGH COUNTY at a meeting held on, October 9, 2001.

Mark Foster
 President
Barbara L. Cunningham
 Attest Executive Director

Secondary Plat complies with the Ordinance and is released for Recording.
Barbara L. Cunningham
 Executive Director

PLAT RELEASE DATE: Nov. 5, 2001

General Notes

Access Note: Lot 1 shall access Old State Road through the Ingress and Egress Easement.

Water Utility Note: The house on Lot 1 and the house on the Remainder Area are currently served by the same water line. Per Agreement Helen A. Reed will cause (at her cost) the house on Lot 1 to be disconnected from the existing water line and allow the water meter to be transferred to the Remainder Area.

Basements: Any basements must be approved by the Vanderburgh County Building Commissioner.

Flood Plain Data: The within described tract of land does not lie in that special Flood Hazard Area, Zone A, as said tract plots on Community Panel No. 180256 0025 C of the Flood Insurance Rate Maps for Vanderburgh County, Indiana, dated August 5, 1991.

The lowest floor elevations of any enclosed space (including garage) must be at least two feet above the 100 year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). Additional information may be obtained from the Vanderburgh County Building Commissioner. First floor grades shall be set to allow for proper drainage around houses. All first floor grades shall conform to local and state enforced building codes.

Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working with or disturbed earth shall comply with the "Erosion Control Plan" and any amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 6% shall be mulched and seeded with a cover crop, i.e., rye, red top, or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and shaping. Slopes of more than 6% shall be mulched and seeded and shall have silt fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

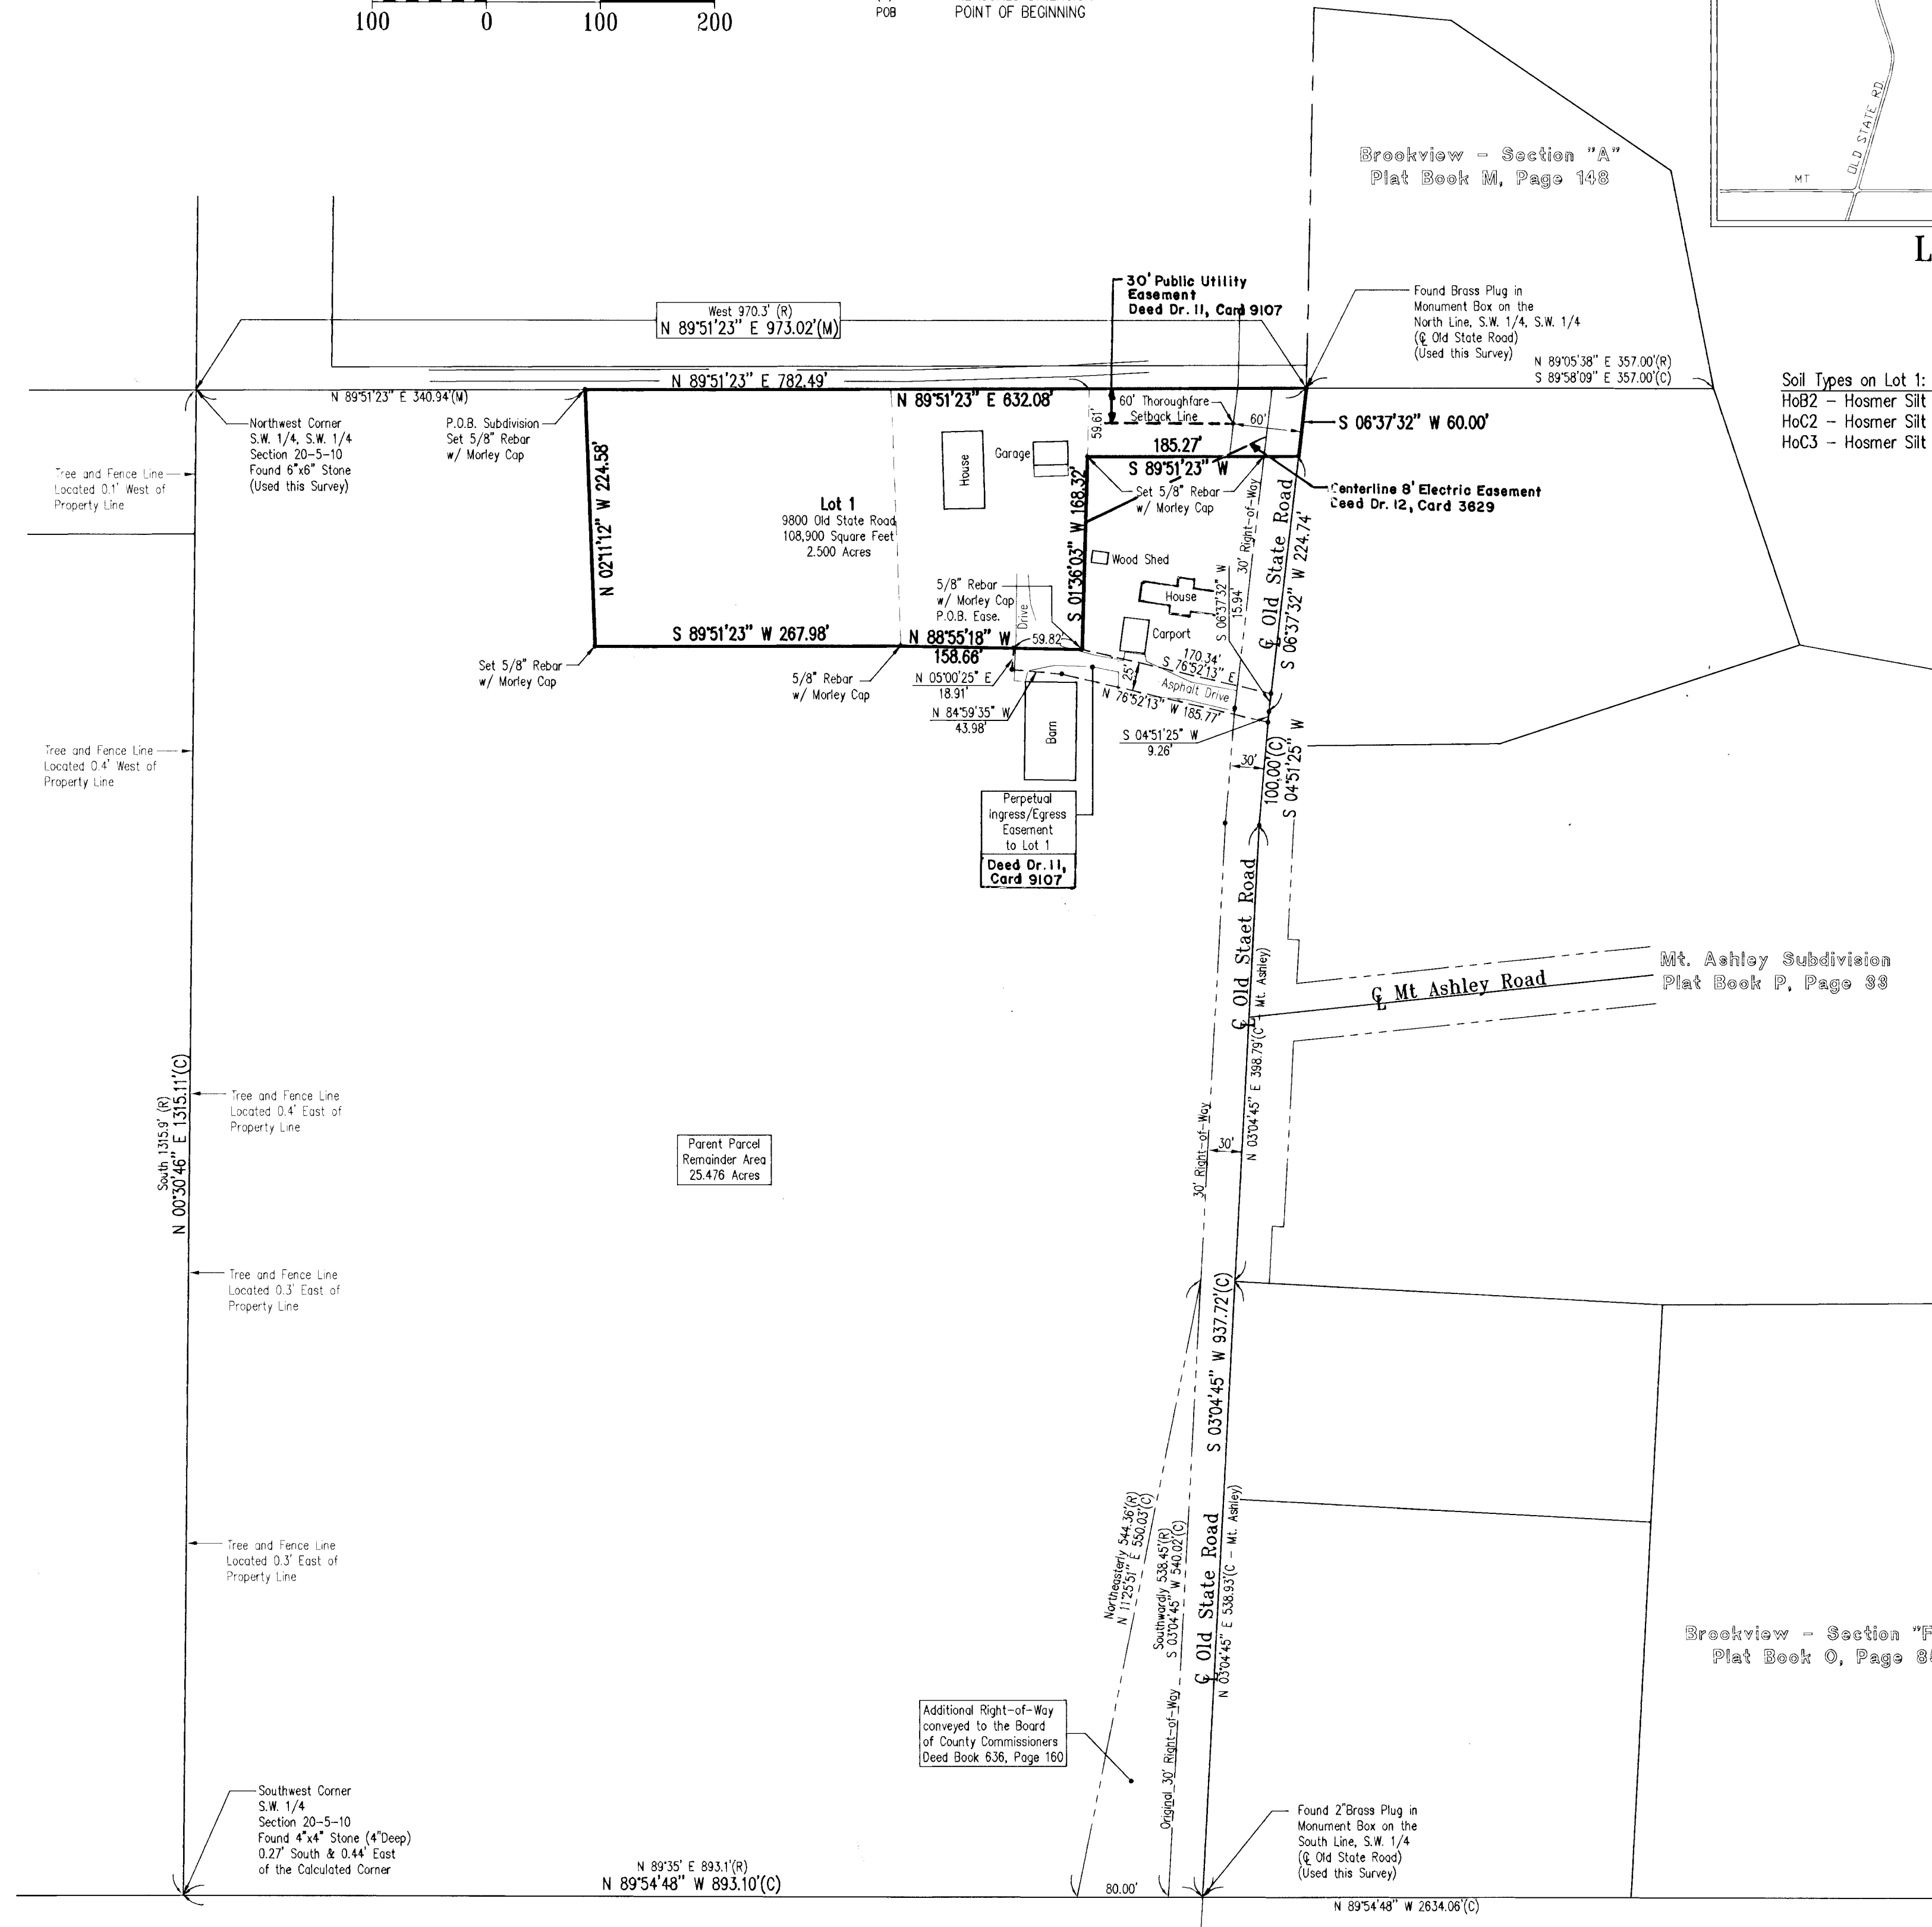

Lot acreage is calculated to the centerline of Old State Road.

Private Sewerage Disposal Requirements: A Plat plan, completed by an Engineer licensed in the state of Indiana, must be submitted to the Health Department prior to the issuance of a private sewerage disposal permit. No permits for a private sewerage disposal system shall be issued for any lots in this subdivision, on which it can not be shown that there is sufficient acreage that can be deemed suitable for private sewerage disposal as defined in Indiana State Board of Health Rule, 1AC-410-8, and any Vanderburgh County Ordinance and amendments thereto.

Private Sewerage Disposal Note: The house on Lot 1 and the house on the Remainder Area are currently served by the same septic system. Per Agreement Jackie A. Herron will cause (at his cost) the house on the Remainder Area to be disconnected from the existing septic system.

Property Corner Markers: All corners not already monumented will be monumented with a 5/8" diameter rebar with plastic cap stamped "Morley and Associates, Inc. I.D. No. 0023."

The boundary of the subdivision and the Remainder Area was re-established in a previous survey by Morley and Associates, dated 3/26/98, and recorded in Surveyor's Plat Drawer 1, card 1543.
