General Notes

6. The Repair Fund established for this Project will pay the costs of repairing structural failures in the storm sewer pipes, pipe collars, drop boxes, appans, inlets, manholes, junction boxes, and the piped or paved outlet structures of the storm water control basins all of which are parts of the approved and constructed storm water drainage system shown on the as-built plans for this Subdivision; and which are in drainage easements and outside of the county accepted road rights-of-way as shown on the plot of this subdivision.

7. NOTICE: Any pipe, fence, wall, building, pool, patio, planting stored material, excavation, fill, or other construction, improvement, addition to, or alteration of the land within a drainage easement in this subdivision requires the prior written approval of the County Drainage Board.

Erosion Control: The Developer, Development Contractors, Builders and all Lot Owners or anyone working with or disturbed earth shall comply with the Erosion Control Plan and any amendments as filed with the County Drainage Board and the Soil and Water Conservation District, and with all Federal, State and Local erosion control laws.

Temporary Erosion Control of Disturbed Areas: Slopes of 0% to 8% shall be mulched and seeded with a cover crop, i.e.: rye, red top or wheat, within forty-five (45) days of disturbance of soil, which must remain in place until final grading and seeding. Slopes of more than 8% shall be mulched and seeded and shall have silt fence, straw bales and/or erosion blankets in place within five (5) days of disturbance of soil which must remain in place until final grading and seeding.

Property Corner Markers: All corners not already monumented are marked with a 5/8" diameter iron rod with plastic cap stamped "Morley and Associates, Inc. I.D. No. 0023".

Bench Mark Data

Final Drainage Plans Were Approved By The Vanderburgh County Drainage Board On: October 25, 1999.

Final Street Plans Were Approved By The Vanderburgh County Commissioners On: December 13, 1999.

General Notes

Access: All Driveways shall access interior streets only, except lot 132, it shall access Eissler Road directly.

Utilities: Water and sanitary sewers will be extended to the site. Gas and electric will be extended to the site.

Road Grades: Maximum road grades will not exceed 10.0%.

Basements: Any basements must be approved by the Vanderburgh County Building Commissioner.

Floodway Construction: Construction activity within the floodway will require permits from the Department of Natural Resources (DNR).

Flood Plain Data: No portions of the proposed subdivision lie within the boundaries of the 100 year flood zone as plotted by scale on Flood Insurance Rate Map for Vanderburgh County, Indiana, Community Panel Number 180258 0025 C, dated August 5, 1991. The plotted boundary is the revised Letter of Map Revision boundary. That is a result of FEMA case #95-05-105P, dated Sept. 25, 1995.

The lowest floor elevations of any enclosed space (including garages) must be at least two feet above the 100 year flood elevation. This minimum floor elevation is called Flood Protection Grade (FPG). Additional information may be obtained from the Vanderburgh County Building Commissioner. First floor grades shall be set to allow for proper drainage around houses. All first floor grades shall conform to local and state enforced building codes. FPG has been marked on all lots near the flood plain. Lowest adjacent grades and cross-slopes shall be a minimum of 0.1' above the Base Flood Elevation (100 year flood elevation).

All first floor grades shall conform to local and state enforced building codes. First floor grades shall be set to allow for proper drainage around houses.

Storm Drainage Maintenance: The individual lot owner(s) shall be responsible, including financially, for maintaining that part of the storm water drainage system and its easements which exists on his or her property in proper working order including:

- Mowing grass, controlling weeds, and maintaining the designed cover of waterways, storage basins, and easements in accordance with applicable ordinances.
- Keeping all parts of the storm water drainage system operating as designed and as constructed; and free of all trash, debris, and obstructions to the flow of water.
- Keeping the channels, embankments, shorelines, and bottoms of waterways and basins free of all erosion and sedimentation.
- Maintaining that part of the storm water drainage system which lies on his or her property in accordance with the conditions described on the approved street and/or drainage plans on file in the County Surveyor's Office, and/or in the County Engineer's Office, and in compliance with the County Drainage Ordinance.
- Preventing all persons or parties from causing any unauthorized alterations, obstructions, or detrimental actions from occurring to any part of the storm water drainage system and easement which lies on his or her property.

Owner's Certificate

The undersigned owners of the real estate shown and described hereon do hereby plat and subdivide said real estate as shown and designate the same as Woodgate Subdivision Section I. All roads shown and not previously dedicated are hereby dedicated to public use.

Strips or areas of land, of the dimensions shown on this plat and marked "P.U.E." (Public Utility Easement), are hereby dedicated to public utilities for the installation, maintenance, operation, enlargement and repair of utility facilities, whether above ground or below ground, with the right to trim or remove, at the discretion of the public utility, trees, overhanging branches, bushes, underbrush and obstructions. No structures other than such utility facilities shall be located within said areas of land and any fence located within said area of land is subject to removal by a public utility without liability in the use of said easements by said utility.

Strips or areas of land, of the dimensions shown on this plat and marked "D.&UG.P.U.E." (Drainage & Undergound Public Utility Easement) are dedicated for conveyance of surface water and/or subsurface water drainage and for the maintenance and operation of underground portions of public utility facilities, including flush with surface level manholes and vaults that do not impede drainage flow, access along the easement, or mowing and maintenance of the easement. No structures other than such utility facilities or drainage ways or systems shall be located within said areas of land and any fence located within said areas of land is subject to removal by the Drainage Board or a public utility without liability, in the use of said easements.

Strips or areas of land, of the dimensions shown on this plat and marked "D.E." (Drainage Easement) are dedicated for conveyance of surface water and/or subsurface water; provided however, that public utilities are hereby permitted to cross such Drainage Easements with utility facilities provided, that such facilities are not placed in such manner as to impede the flow of water and further provided that such Drainage Easements may be used for ingress, egress and temporary staging areas for work by public utility so long as any damage caused to a drainage facility is repaired by the utility company. The property owner is responsible for maintenance and erosion control of said easements and shall not place landscaping, earth berms, fences or other obstructions that impede or reduce the flow of water.

Strips or areas of land, of the dimensions shown on this plat and marked "L.M. & S.D.E." (Lake Maintenance & Storm Drainage Easement) are dedicated for the maintenance of the storm drainage lake and maintenance, and storage of storm water. Any alterations to the land within these easements must have the approval of the Drainage Board. Fences may not be extended into the Lake Maintenance and Storm Detention Easement.

All easements are dedicated with the right of ingress and egress over the lots within this subdivision to and from said easements for necessary construction, maintenance or reconstruction.
